FB Editor is a comprehensive application that enables you to open, view and edit FB2 e-book files on your computer. It can be used for loading such documents and reading their content, as well as create FB2 e-books from scratch. Forthright approach and ease of use Thanks to its intuitive interface and the accessible options in the toolbar, modifying the content of a document is easy. The structure of the e-book is displayed in tree view for easier navigation, while most of the interface is occupied by the text pane. Insert various elements into your e-book The e-book might contain annotations, epigraphs and body text. You can easily assign it a title and configure the text author. Alongside these elements, there are various other items that can be inserted, such as images (JPG, JPEG, PNG, BMP, GIF and TIF are the supported formats), poems, cites or tables. Hyperlinks, footnotes and references are

---

among the other elements that you can insert. Quickly modify e-book properties You can also edit the e-book properties, configuring the genre, the author details, its title, keywords, available languages and the name of the translators, document version and creation date, data sources (OCR documents, URLs), as well as details concerning the published paper book (publisher, city, year, ISBN). The 'Source' mode enables you to view the book's structure in a different way, with tags similar to those of XML files. Documents can be either saved in FB2 format or exported as HTML files and saved to your computer. An easy to handle e-book editor FB Editor is not just an e-book reader, as it offers a toolset for editing their content. It is easy to work with and can remember information concerning the author and other details. 4. #### **What's New in the Fiction Book Editor?**

FB Editor is a simple, easy-to-use application for working with e-books. It can open and view the e-books on your computer, as well as create new e-book file (FB2) with support for a huge range of multimedia elements such as image, video, audio, etc. The application supports book versions with different layout (single column, double column, epigraphs and footnotes on the left or right, etc.) and has a range of tools for creating and modifying the book's content. The

---

author may add annotations, epigraphs and a text body to the book. All features of e-book publication are at hand: you can insert audio (including voice annotations, pictures, videos) and links and you can customize the book's title and keywords. FB Editor is also capable of a text search and replace function, as well as spelling check. Thanks to an intuitive interface, you can easily view the document structure and navigate the content. Other features include the ability to add, view and delete footnotes and the ability to replace, view, copy and paste contents from a number of sources. The application accepts virtually any documents in various formats (FB2, HTML, PDF and even web pages) and also creates various types of PDF files and HTML files from them. Book version with a double column layout can be created, but this functionality is not available for the generated PDFs. FB Editor allows you to set up and modify e-book properties, including genre, author and title details, the available languages,

---

date of publication and so on. To get the best result, you need to send us a FB2 document. FB Editor Features: - Create an e-book from the local or Internet source file. - Convert your document to various document formats: PDF, EPUB, HTML (with bookmarks, document outline, table of contents, etc.), FB2, TXT and more. - Insert various elements into your e-book - images (JPG, JPEG, PNG, BMP, GIF and TIF), poetry, epigraphs and body text - Combine the elements and create a book with the “Put together” option or use the “Separate” function to create a book in different sections - Choose the most suitable layout for your book from among the available options (single column, double column, left and right footnotes) - Configure the text author
