Category:Syllabi Category:DissertationsQ: Use of generics in a class that takes a list I've got a class that takes in a list, and iterates through that list doing something. The class has quite a few parameters so I want to use generics to encapsulate the common code in a separate method. I'd like to have something like this: void MyMethod(List< items) { foreach(var item in items) { //do something } } Where KeyValuePair is a class defined as: public class KeyValuePair { 570a42141b
