While having an Instagram desktop application does have many advantages, the lazy idea behind it, in this case, doesn't actually do it justice. You'll end up dealing with the same experience, the only actual change being one less tab in your browser, crowding your workspace. ]>Sun, 23 Sep 2016 17:25:12 GMT - Once a Facebook product, now a desktop app for Windows: Photos & Video Instagram Photos & Video App For Windows Hmm...
