
Leapwing Audio DynOne V3.0 VST, VST3, AAX

Available on Mac OSX (10.12+), Windows 8, 10 (64-bit only) in AAX-Native, VST, VST3 and AU formats. Created by a dedicated support team that listens to the community. It's not that difficult, because most audio tracks can be played using a standard Windows Media Player, and their recording can be done using the Screaming Bee utility. But in some cases, external applications will have to be used.
