
PatentHunter With Keygen Free Download Latest

Nowadays, it seems that the Internet has software solutions for any profession and for personal use as well. PatentHunter Crack is a very nice application that allows patent attorneys, businesses and inventors to search, download and organize their records concerning United States and foreign patents. Lightweight interface with lots of tools at hand The application doesn't take long to install and it doesn't have a complicated setup that you must complete. Simply

launch it and start looking for patents. It sports a really comprehensive and colorful interface that makes it easy to switch between sections and start advanced patent searches. It even comes with a help section, filled with instructions and other tools that you might need. Search for patents easily There's the option to launch general searches in which any results that you select will only be saved for the current session and not for later searches as well. You can save search results for later sessions or open an existing search which will allow you

to utilize results and continue with other keywords. Type in up to two search terms and select one of the field types, like title, abstract, issue date, inventor name, country and more. You can combine fields and use advanced tools to find patents faster. Read and analyze patents Use advanced tools for narrowing down the list of search results to find the items that you need faster. You can save reports and check them out later. The name of the document and code is displayed, double click to start downloading the item. You can search

through patents or the database of published applications. All saved files are arranged in a separate section, you can manage and organize them into folders. Documents come in.pdf format, you have a quick link for installing the suitable reader. All in all, PatentHunter is a must-have application for patent attorneys and business people, providing quick and intuitive tools for searching and analyzing US and foreign patents. PatentHunter is a very nice application that allows patent attorneys, businesses and inventors to
