Typically, a user remotely communicates with such machines via an RCD. For example, a user manipulates an RCD to program a wall switch and/or input commands to another machine (e.g., water heater, dryer, etc.). When a user presses a button on the remote control device, the RCD sends a signal via a wireless channel to the machine and activates the device. The user may then use the RCD to control the machine as desired. Thus, the user of the remote control device is able to control the machine remotely.LEWA, Germany (Reuters) - Germany's data protection authority has launched an investigation into Yahoo Inc's data breach affecting 1 billion users earlier this year, the General Data Protection Regulation (GDPR) regulator said on Tuesday. FILE PHOTO: Yahoo Mail's logo is pictured on a door of a Yahoo office in Seoul, South Korea, April 18, 2016. REUTERS/Kim Hong-Ji/File Photo The European Union's new privacy rules, which went into effect on May 25, give data protection authorities the power to initiate investigations into companies suspected of breach of personal data. The online accounts and emails of nearly 1 billion users were hijacked in early 2016, prompting one of the biggest data breaches in history. "We are investigating whether the company complied with applicable data protection laws and regulations. We are also monitoring whether the case can be dealt with at an administrative level," the German Federal Commissioner for Data Protection and Freedom of Information (Bundeskartellamt - BKA) said in a statement. The investigation would include measures to determine whether data can be fully or partially deleted in order to 1cb139a0ed
