**Stepmania 3.95 Cvs Download \_\_EXCLUSIVE\_\_**

Here is my review of Stepmania CVS 3.95 with the ITG2 theme and notes. Plot: A plot for a dance game? I don't think so, so we'll skip it. Level design: The level design is in the style of Dance Central 2, for which I should be grateful. The level design is in the style of Dance Central 2, for which I should be grateful. It has the same levels as Dance Central. Music: The music you will hear in this dance game is a mixture of hits from the 90s and modern dance tracks. You shouldn't expect anything else from this dance game. It costs \$3.99 and I think it's not that hard to buy.
