BriefClips is a small software application developed specifically for helping you enhance the functionality of your Windows clipboard by storing multiple records. In order to run the program correctly and avoid bumping into all sorts of errors, you need to deploy Microsoft.NET Framework on the target computer. Portable running mode You can keep BriefClips stored on pen drives or other similar devices so you can take it with you all the time. Plus, you may run it without having to possess administrative privileges straight from the storage device. Gaining access to its interface can be done by double-clicking on the executable file because you do not have to go through an installation process. Plus, you may get rid of it with a simple deletion task of the files that you have downloaded from the Internet because it does not leave entries in your Windows registry. Clean layout BriefClips sports a simple design that reveals the stored clipboard contents directly in the main window. The utility is able to automatically save clipboard entries and allows you to sort them by text, rich text, HTML, or image items. Clipboard storing capabilities The application offers you the possibility to keep clipboard entries in a certain order in the list by moving them up or down, delete or send records via email, make use of preset hotkeys for faster actions, check out a list with recent clipboard items, as well as automatically copy the saved item to the clipboard upon its selection. Other important configuration settings worth being mentioned enable you to run the tool at Windows startup, show system tray notifications for new clips, keep the main window on top of other panels, set the default saving directory for clipboard entries, and display a limited number of recently used items in a list. What's more, you are allowed to export clipboard images to BMP, JPEG, GIF, PNG, or TIFF file format, and set up an email account so you can quickly share data with your friends. Final words In conclusion, BriefClips comes bundled with several handy features for helping you manage your clipboard content in an efficient way, and is suitable for rookies and professionals alike.
