city garden All-purpose plants for the garden

Plants for children Small plants Description: Discover

What's New in the?

QLogin is a personal data repository application that helps you to manage and store your personal data. QLogin can be installed on to an external USB drive (for portable data management); or on your home or office computer, to securely access your data without the fear of the data ever being compromised. Security QLogin is designed absolutely with the security of the end user in mind and it offers some of the best innovative security features to protect your data.   System level file protection - Core application components are protected from prying eyes, the first step taken by an intruder to hack data.   Industry standard

high bit encryption of data (uses RijndaelManaged algorithm with 256 bit key and 128 bit initialization vector) ❖ In memory application execution - No data traces remain on any computer from where the data is accessed ❖ Strong master password protection for your vault ❖ Non reversible and irretrievable master password - If you forget your master password, you will have no way of accessing the data. ❖ Automatic self destruction of data upon repeated failed master password attempts - For ultimate security, repeated attempts with a failed password will be treated as an intrusion and all encrypted data will be permanently deleted from your vault Portability ❖ QLogin is developed on Microsoft.NET technology and has a very small application foot print (2Mb). As a

result, Qlogin can be installed on your PC and/or a personal USB drive for accessing your data from any computer. The only requirement is that Microsoft.NET Framework 2.0 or higher must be installed on the computer running Qlogin which is a free download from Microsoft or at the Qlogin website.

◆❓ Simplicity **◆❓** The best part about QLogin is that all this security and portability comes with an incredibly easy user interface with no complicated screens or forms. The core focus of QLogin design is to provide the end user, the power to manage their data in a secure, intuitive and simple interface. With that objective in mind, Qlogin 3.1 provides additional features including auto learn and auto fill for login information on websites.

◆❓ Simple excel like data entry for fast and easy data management **◆❓** Privacy field

protection (Sensitive information like User Id, passwords, credit card numbers etc are hidden by default) ◆? Inbuilt reporting capability that allows you view and print your data ◆? Export your report to HTML or Excel for offline use or email etc. ◆? Backup your entire data or individual section data protected by password for future restoration ◆?

System Requirements:

Minimum: OS: Microsoft Windows 10
Processor: Intel Dual Core i3-2120 2.3 GHz /
AMD FX-6300 2.5 GHz Memory: 8 GB
RAM Graphics: NVIDIA GeForce GTX 660
2GB / AMD Radeon HD 7870 3GB DirectX:
Version 11 Hard Drive: 30 GB available
space Additional Notes: Internet connection
required Recommended: Processor: Intel
Quad Core i5-3470 3.5 GHz / AMD
