advantage is related to the access speed. Another feature worth mentioning is the 'Snapshot mode'. This options allows you to take screenshots of the whole desktop and save them locally in a specified location, in PNG format only. The predefined hotkeys make it very easy to use. The application also features a text-to-speech tool, but this function failed to work during our tests. Aside from the above features, Advance Notepad acts as a regular text editor, comprising basic functionality that you would expect from an application of this type. You can modify the font style, set the text alignment, enable word wrapping, cut, copy or paste text, find and replace words, as well as customize the font and the background color according to what you prefer.
