Live Start Page promises to offer you time management, an efficient work system, and a relaxing environment to meditate. It is a basic Chrome extension that will enhance your productivity in a way you've never seen before. In addition to offering a beautiful wallpaper or a meditation mode, it has some attractive additional features for fun and to help you live a balanced life. Our main objective is to help you become more productive and efficient, and achieve balance in the most natural way possible. Live Start Page is aimed at easing tiredness, stress, and making your day more enjoyable. It delivers an 8+ hours daily warning, a time management interface, a to-do list generator, a clock and a date feature, and an interactive weather widget. It's a multi-purpose plugin that will help you explore your inner self, encourage mindful meditation, and protect your attention. Live Start Page is free to use, and the premium version has better features, plus it comes with a mobile application you can use on your smartphone to get daily notifications. Live Start Page Features: ■ The Time Management Mode This feature will assist in having a balanced life and allow you to set a daily alarm to ensure you won't miss important deadlines, your work, or your daily goals. ■ Meditation Mode You can get access to this meditation mode anytime you want. With it, you will be transported into a world of peace, tranquility, and balance. ■ A Beautiful Wallpaper Choose from dozens of stunning and calming wallpapers intended to assist you in relaxing and de-stress. ■ A Unique Environment for Meditation This will allow you to focus, meditate, and give you time to do whatever you want in a world of peace and beauty. ■ A Smart Clock This feature will help you set your alarm, knowing exactly when you want to wake up. The applications are intuitive and easy to use. ■ An Interactive Weather Widget This feature will help you know the most relevant weather information, in real time, that you need to get to work in the morning or just in general. ■ A Google Home Widget This feature will allow you to have access to Google's search engine and other applications that you use frequently. ■ A Night Mode This feature works as a darker mode

What's New in the?

Have you ever imagined that you can control your own digital assistant? The new collaboration app "Right Hand for Apple" lets you do just that. You can use your fingers as your keyboard and control your Siri, your Google Assistant or any other digital assistant easily. You will have your own personal digital assistant and interact with it anytime and anywhere. What can you do with Right Hand? You can use Right Hand to communicate and interact with your home assistant. The most common functions are a text (Siri), search (Google), control (Google Assistant), or trigger (Google Assistant). Use gestures and shortcuts to do everything With a little more, you can do even more. You can control digital assistants through gestures and shortcuts. Gestures are the actions you want your assistant to perform (for instance, sending a message, opening a document). The shortcuts are the commands you want the assistant to perform (for instance, press the bell to initiate a call). To discover the shortcuts, you have to enable Right Hand in the main menu of Siri or in the Settings (Google Assistant). How to use it? To discover the shortcuts, you have to select Right Hand. From the Home screen, you have to drag and drop a shortcut on the Right Hand icon. You can also update the shortcuts by swiping on the Right Hand icon. Tips: • If you use Right Hand with a phone, you will have more results in the mobile app. • If you have the Home app, you will have more results and you can also control the Home using gestures. • If you use a Bluetooth keyboard, you can connect it to your smartwatch or to your computer. • You can select a voice for your assistant. For example, you can use the voice from your iPhone. You can use the voice from your Mac, your Google Home or Apple HomeKit. How to work with Siri: • Home app: Drag and drop on the Right Hand icon. • iPhone: When you are at your mobile assistant settings, tap on the Right Hand. • Mac: Drag and drop on the Right Hand icon. Overall, Right Hand is an amazing tool that is very convenient when it comes to controlling digital assistants. It allows you to easily and quickly interact with your home assistant. Right Hand is available on the Google Play Store: The installation
