Naltrexone for alcohol-induced personality disorder: a randomized, placebo-controlled trial. The etiology of alcohol-induced personality disorder (AIPD) is currently unknown. A recent case study suggested that blocking the mu-opioid receptor may be an effective treatment for AIPD.

We tested this hypothesis by randomly assigning patients with alcohol dependence to treatment with either naltrexone (NTX) or placebo (PBO). Over a period of 3 months, 46 patients were randomized to daily NTX (50 mg) or PBO. Weekly measures of alcohol craving, pain, and mood were taken with the exception of the days before and after discharge. At follow-up after 3 months, we found that

NTX reduced cravings (p Burke County Board chairman candidate Christine Hester said the purpose of her candidacy is to see that citizens of the district have a better voice in the process and to work to improve the education system. Hester and fellow candidate John Price are challenging District 6 board member Mark Reynolds. The two candidates have had an intense and fairly public

campaign. Hester and Price have been campaigning in an effort to unseat Reynolds, who has held the position since 2010. Hester says she believes the board has become too involved in the business of school
