**Download**

it really works! No activation key and no Social Club login. by razor 1911. search it on TPB. What could be the problem? 1. In the launcher settings, select the network "only via VPN" 2. Disable VPN 3. Clear the app and launcher cache, delete data. 4. If it does not help: - Go to the launcher settings and select "restart the program" there 5. When the launcher loads, install Social Club. 6. Install RockStar Games Social Club (not Social Club vpn). 7. Make sure you don't enter the key into Social Club. It should be in the launcher. If all this fails: Patch the launcher in the launcher.
