#### What's New In ID Harddisk SmartChecker?

ID Harddisk SmartChecker has a user-friendly interface which is easy to use and does not require any specialized knowledge to operate. It smartly checks your hard disk efficiently and it also supports a wide range of operating systems. The S.M.A.R.T. technology stands for ♦Self-Monitoring, Analysis and Reporting Technology♦, an advanced technology that comes with each hard drive. It is designed to continuously monitor and analyze the health of your disk and also reports you about its efficiency and other relevant issues. It also monitors and supervises the memory, drives, and processes on the computer's system. It enables you to watch over the operation of your computer from a very safe distance and it also notifies you whenever a problem is present in your computer. You can set many settings, which allows you to adjust every one of them as you wish. It can be adjusted in several modes, including notifying you on events, alerts and alarms, creating logs, notes, error alerts and opening remote servers. ID Harddisk SmartChecker Pros: ☑ Allows you to instantly monitor your computer. ☑ Supports S.M.A.R.T technology. ☑ Monitors your hard drive completely. ☑ Saves you from problems. ☑ Allows you to set multiple alarms. ☑ Monitors the temperature of your hard drive. ☑ Monitors the amount of time your PC is on. ☑ Lets you set various alarms. ☑ Checks your hard drive for all errors. ☑ Saves all of your files for more than 15 days. ☑ Allows you to create notes, logs, and error alerts. ☑ Notifies you whenever your PC gets a virus or an email. ☑ Supports your computer's firmware. ☑ Can adjust on many settings. ID Harddisk SmartChecker Cons: ☑ It is a freeware. ☑ It may not work on computers with BIOS settings which are different from Windows. ☑ It is a graphical program which is not user-friendly. ☑ Supports Windows 98/ME/2000/XP How to use ID Harddisk SmartChecker: ☑ Download ID Harddisk SmartChecker from its official site [www.softpoint.fr](http://www.softpoint.fr) ☑ You must download and install it. ☑ During installation

**System Requirements For ID Harddisk SmartChecker:**

Minimum: OS: Windows Vista CPU: 2.4 GHz or faster CPU (note: CpuTek adds a check for CPU speed at runtime, which might affect performance. The speed of your CPU is the most important factor. If your system does not meet the minimum requirements, the game will not run.) Memory: 1 GB RAM (1 GB, 2 GB or 3 GB recommended) DirectX 9.0c compatible video card (e.g., NVIDIA 8800GT, 9800GT, HD4800)
